## About the event

The EJBW is offering a two-part training programme for interested parties and actors on the topic of colonialism. The training programme will be conducted in cooperation with the Bundeszentrale für politische Bildung (bpb). ([www.bpb.de](http://www.bpb.de)).

## Goals

- > **Further education and training** on the topics of colonialism, neocolonialism, postcolonialism and decoloniality.
- > **To put the topic more strongly on the agenda**, especially from the perspective of formerly colonized countries.
- > **To develop ideas and educational offers** for civic education.
- > **Networking** between actors and interested parties in the field.

Are you interested in the topics or already active in the field yourself? Would you like to deepen and broaden your knowledge on the topic, not only from a German perspective, especially from a non-German, non-European, global or BIPOC perspective? (BIPOC stands for Black, Indigenous, and People of Color). Would you like to learn more about colonialism from the perspective of the (formerly) colonized and how this history interweaves with German and European colonial histories?

The educational program offers the opportunity to learn, share knowledge, network, and develop ideas for your own educational programmes that can be implemented in schools, for example. The academy will be held bilingually in German and English.

## Keynote speakers for the training programme

Peggy Piesche (bpb)

Iris Rajanayagam (bpb)

Dr. Ohiniko Mawussé Toffa
