## SKAB'ING: DIVING INTO SKILLS, KNOWLEDGE, ATTITUDES & BEHAVIOURS

Welcome to the world of SKAB'ing, where we try to unravel the intricate tapestry of Skills, Knowledge, Attitudes and Behaviours. In this exploration, we delve into the core elements that shape our overlapping personal and professional landscapes. Within the SKAB'ing framework, we identified two conceptual focuses:

- **ABC - Attitudes, Behaviours, Crossroads:** a comprehensive training series unpacking the ETS Competence Models - for trainers, youth workers & educators
- **Transversal:** a strategic programme aimed at organisational development based on the ETS Competence Model - for organisations in the field of youth work and non-formal learning.

### SKAB'ING ABC – Attitudes, Behaviours, Crossroads:

**Four thematic Modules, each consisting of one training course, a practice phase and a consolidation meeting.**

**Module I: Attitudes & Behaviours** will be held from **26.04.-02.05.2024 in Tauchen (Austria)** and from **24.06. – 30.06.2024 in Weimar (Germany)**; a practice phase will take place in May and June 2024.

We understand that how people think and act can be quite complex and varies from person to person. It's not a straightforward path and doesn't work the same way for everyone. Many things can affect it, like what is considered "normal" in society, how strongly people hold their beliefs, and whether their thoughts are in conflict.

This module is an invitation for all of us to embark on a self-exploring and self-directed learning process; we will chart our own course aiming to acquire a nuanced understanding of these complexities, enabling us to navigate the relationship effectively within the context of ETS competence models in our educational roles.
